

Make your building accessible to all with our highly visible vandal proof door opener

Accessibility to your building is important and a legal requirement. Make it easily noticeable and usable for all with our illuminated door opening strip. The strip can be cut to your required height and is tamper proof. Feel safe can be fully waterproofed and is available in a number of noticeable colours. This product also complies to Document M.

A continuous monitoring illuminated access strip

Potential impact zone 10 times wider than anything else on the market

Low profile to reduce accidental activation

Adaptable impact sensitivity area

Accessible at all times to all users

Fully illuminated and can be accessed at any height

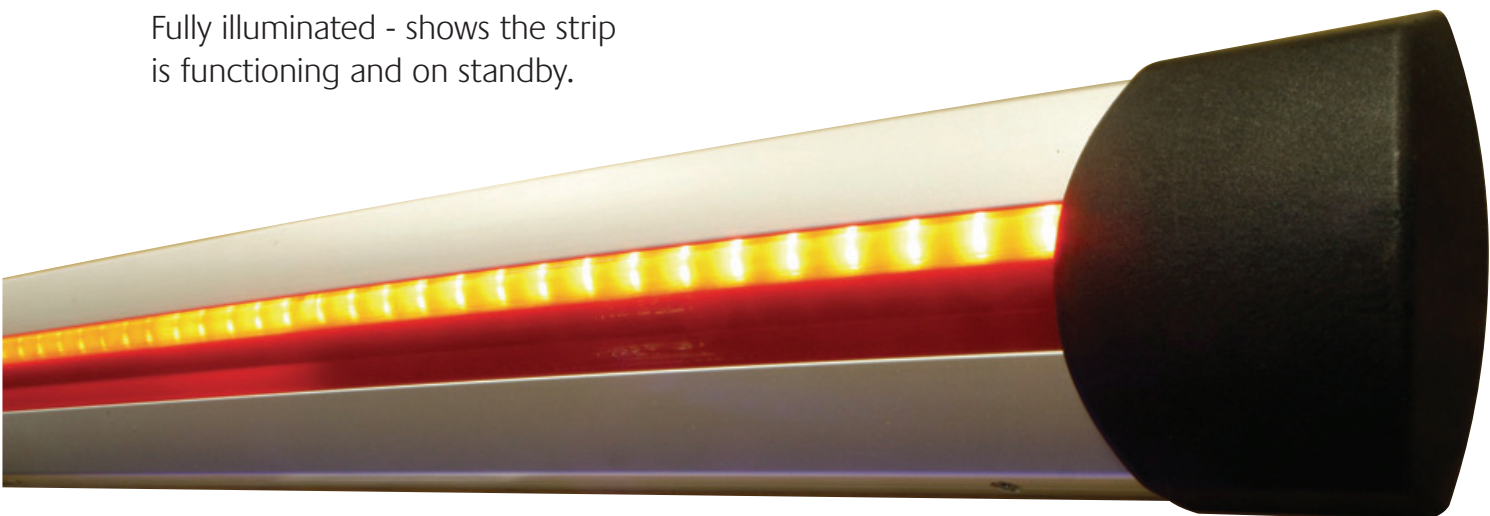

Crona **feel safe** can be easily integrated into existing electronic alarm and monitoring systems.

Feel safe can be programmed for a variety of actions.

Fully illuminated - shows the strip is functioning and on standby.

Build and Features

- Full length illumination.
- End of line monitoring – guaranteeing continuity of access strip.
- Available in either bright anodised, satin anodised sturdy aluminium base – manufactured in two pieces with security tamper free screw fixings piece to be robust and vandal proof.
- Sturdy, flexible, continuous insert available in blue, red and green (or a variety of other colours on request).
- Virtually unbreakable laminated structure, won't tear or rip.
- End caps are designed to be vandal and tamper proof.
- Easy clean.
- Self monitoring.
- Optional anti-microbial coating and impregnation of insert for lifelong protection against 99.9% of super bugs (kills MRSA, C-Difficile, E-Coli and salmonella at spore level).

Fitting

- Quick and easy to fit on site.
- No special tools required (it's possible to fit 3 times as much safe-zone as any existing product on the market).
- Push-on pre-wired connector ends.
- On site sealing to IP65.
- Self aligning base for accurate fitting.
- Cut to length.

Make your building accessible to ALL!
